CSS

HTML5

HTML

Node.js

RESTful API

MySQL

GraphQL

PostgreSQL

Git

## Hobbies

I like to spend time with friends, traveling, and building web applications that do incredible things.

## Profile

As a full-stack developer and United States Marine Corps veteran, I bring a unique and team-empowering blend of technical skills, client-facing, leadership, and problem-solving skill to any project.

In the Marines, I learned the importance of attention to detail, the ability to work well under pressure, and the value of teamwork. These skills, combined with my passion for technology, make me an asset to any team.

Upon exiting the Marine, I applied myself by developing the technical skill to building high impact applications for myself and my clients.

## Employment History

### Full-stack Software Engineer , Prime Digital Academy, Minneapolis, MN

SEPTEMBER 2022 – FEBRUARY 2023

This accelerated full-stack development course is designed to teach students the skills and technologies needed to become full-stack developers in twenty weeks.

- I have experience using Git, React.js, HTML, CSS, JavaScript, node.js, and express, and I have implemented several other technologies to reach development milestones via spikes, development, deployment, and maintenance.
- Developed and deployed a personal Full Stack Application called GoMove. Designed to assist Personal trainers, physical therapists, and individuals in programming exercise and physical therapy programs.
- Developed and deployed a Full Stack Application for a Client; who is a significant publication in Minneapolis, Minnesota. The app successfully revolutionized its publication process. We migrated them from spreadsheets, sticky notes, and email to a single centralized workflow application.

### Security Officer , Fairview Health Services, Woodbury, MN

FEBRUARY 2021 – SEPTEMBER 2022

As a hospital security officer, I was responsible for maintaining the safety and security of the hospital facility and its patients, staff, and visitors. This included patrolling the hospital grounds, responding to emergencies and incidents, and enforcing hospital policies and procedures.

- Stabilized dynamic situations using communication skills and physical controls as necessary.
- Built team comradery and competence through training and building faith in each team member's ability to protect and serve the hospital staff and patients.

### Founder , Die A King

MAY 2021 – JUNE 2022

Drop shipping technology brand company selling branded digital and physical products to fans of our Instagram account.

- Built an organic Instagram follower-ship from zero to over 15,000 followers.
- Built and designed the sales pipeline using Shopify, API plugins, and PayPal.

### Intern , Experience Shindig, Seattle, WA

FEBRUARY 2020 – JULY 2020

Technology Startup with the mission to bring chefs or chef-made dinners into our client's homes during the COVID pandemic.

- Research, experiment, and discover our customer base characteristics or buyer personas.
- Developed cost-effective marketing strategies.
- Observed the LEAN startup method and SCRUM from the Founder a prior Microsoft Project Manager.

## **U.S. Marine (Sergeant) , U.S. Marine Corps**

MAY 2016 – MAY 2020

Served three years as a Special Reaction Team Member, leading the Sniper Team, Instructing Advance Firearm Courses, Participating in Personal Protection Operations, and collaborating with Federal Agencies was an enlightening and challenging experience that taught me through experience how to overcome the most daunting challenges.

- Acceptance and attaining several leadership roles within Quantico's Special Reaction Team.
- Led Patrol Section Alpha, consisting of 30+ Marine and Federal Law Enforcement Officers, increasing training quality, work performance, and communities trust.
- Meritoriously promoted to Corporal (E-4).
- Promoted to Sergeant (E-5) in less than three years of beginning service.
- Rewarded several Commendations based on Military performance.
- Selected as a representative for ambassadors from Europe and Asia Continents.
  - Aided in escorting and protecting the former South Korean President, Moon Jae-in.
- Guided technical and tactical stays of several Royal Detachments.
- Trained and acted as opposition for FBI Hostage Rescue Teams, DEA SWAT, Metro SWAT, and others, testing their capabilities and providing realistic scenarios.
- Graduated as the 'Top Operator' from SWAT school (Honor Graduate).
- Graduated from Prince William Police Academy with top 3 academic marks and top marksmanship with a 99.67% accuracy (Missing one time in a 300-round course of fire).

## **Education**

### **Full Stack Software Engineering, Prime Digital Academy**

FEBRUARY 2023

This accelerated full-stack development course is designed to teach students the skills and technologies needed to become full-stack developers in twenty weeks.

- Developed and deployed a solo Full Stack Application called GoMove. Designed to assist Personal trainers, physical therapists, and individuals in programming exercise and physical therapy programs.
- Developed and deployed a Full Stack Application for a Client; who is a significant publication in Minneapolis, Minnesota. The app successfully revolutionized its publication process. We migrated them from spreadsheets, sticky notes, and email to a single centralized workflow application.

### **Business Management A.S. , Century College**

DECEMBER 2022

The associate of science degree in business management curriculum included coursework in various business-related subjects such as accounting, finance, marketing, human resources, operations management, and business strategy.

- My favorite course was Managerial Accounting.

## **Computer Science, The Citadel, Military College of South Carolina, Charleston**

SEPTEMBER 2014 – MAY 2015

Developed leadership skills, mental fortitude, and discovered my interest in Computer Science.
